

# The Sawtooth Fire Entrapment

## Eleven Year Anniversary

This class presents a wildland fire burnover in which the crew was conducting structure protection and became trapped in the garage as the flame front passed through.

The course is not only about the tactics and strategy used but the human factors involved.

The presentation covers topics on the psychology of an entrapment, the quicksand theory, complacency vs. normalcy, crew resource management, and the Abilene Paradox.

This presentation will take place on the Eleven Year Anniversary on July 11<sup>th</sup> 2017  
Red Helmet Training Classrooms at 10601 Church Street #107, Rancho Cucamonga

This training session will begin at 9:00 a.m.

This class is being presented for **FREE** by RHT
