

Incident Leadership

(NWCG L-381 –and DHS CA-010)

HOSTED BY:

Fremont Fire Department

Incident Leadership

Incident Leadership offers hands-on experience in directing, controlling, and monitoring resources during emerging all-risk incidents.

Why Incident Leadership?

Incident Leadership is a must-have program for leaders of special teams from law, fire, EMS, etc. This program is critical for leaders transitioning from leading at the leader-of-people level to the leader-of-leaders level. Incident Leadership is also beneficial for unit leaders who work at the leader-of-leaders level during an incident.

This experiential, high-intensity leadership program helps participants learn strategies for issues associated with quickly building operational synergy in temporary teams: managing diverse resources, interfacing with community cooperators, and leading operational planning extending into a strategic timeframe.

The program centers on a multi-day simulation mirroring, in real time, the progression of a growing emergency incident. Through several learning cycles, participants team together and learn from each other as they work through problems and issues in a time-critical environment.

“This course and the instructors who presented it did an excellent job of bringing the different disciplines together to work toward a common cause.” – 2010 Participant

*****Register Early***
