

# MEDICAL MANAGEMENT OF CBRNE EVENTS

## PER211

Participants completing this program will be able to properly perform patient triage, decontamination, treatment, and transportation in the event of exposure to chemical, biological, radiological, nuclear and explosive (CBRNE) weapons. The course consists of facilitated discussions, small group exercises, hands-on activities, and task-oriented practical applications. Course participants will use both state-of-the-art adult and pediatric human patient simulators to promote critical thinking skills while utilizing the RAPID – Care concept.

Upon completion of the course, participants will be able to demonstrate the skills necessary for proper detection and monitoring, triage, mass decontamination, treatment, stabilization, self-protection, and cross-contamination prevention.

**Training Level:** Performance

**Venue:** Determined by Local Host

**Course Length:** Two days (16 hours)

### Participant Audience:

- EMS technicians/paramedics
- Fire and HazMat personnel
- Law Enforcement
