

# CAL FIRE Safety Communication 2013-02

## CDF Air to Ground Frequency

- Effective immediately, CAL FIRE is **rescinding** CAL FIRE Safety Communication 2013-01, 2013 CDF Air to Ground Tone Protection Changes.
- Due to concerns of interoperability with cooperators, CAL FIRE **will not use** CTCSS tones on the CDF Air to Ground frequency, 151.2200 MHz.
- The CDF Air to Ground frequency, without CTCSS tones, will continue to be used as the primary Air to Ground frequency for CAL FIRE incidents.
- Once at scene, if aviation resources are unable to use the pre-assigned CDF Air to Ground Frequency due to a high volume of traffic from a separate incident, they may request a new Air to Ground Frequency.
- Reprogramming of CAL FIRE mobile and handheld radios is not required.
- Reprogramming of CAL FIRE Aviation Radios **will be required** and coordinated with Air Attack and Helitack Bases.

Frequency details:

DISPLAY	RX FREQ	RX TONE	TX FREQ	TX TONE	PWR	B/W	NOTES
CDF A/G	151.2200	NONE	151.2200	NONE	L	N	CDF Air to Ground

## Air Tactics 21

- Effective immediately, Air Tactics 21, 151.2725 MHz, **will not use** tone protection.
- Due to concerns of interoperability with cooperators CAL FIRE will continue to use Air Tactics 21 without CTCSS tones.
- Reprogramming of CAL FIRE mobile and handheld radios is not required.
- Reprogramming of CAL FIRE Aviation Radios **will be required** and coordinated with Air Attack and Helitack Bases.

Frequency details:

DISPLAY	RX FREQ	RX TONE	TX FREQ	TX TONE	PWR	B/W	NOTES
AIRTAC21	151.2725	NONE	151.2725	NONE	L	N	Air Tactics 21
