Over the years, many firefighters have been injured or have died while trying to extinguish basement fires or those fires found on levels lower than the front entry point. The ISFSI “Understanding and Fighting Basement Fires” 8-hour classroom curriculum addresses types of basement access, fire attack tactics, nozzles and appliances, and tactical considerations based on research and real life experience. The ISFSI partnership with UL Firefighter Safety Research Institute brings the research to the classroom and from the classroom to the streets.

DEADLINE FOR REGISTRATION IS JULY 26TH AT 5:00 P.M.
