

Designated Infection Control Officer (DICO)

Dates:

February 26-28th, 2019

Class Description

Federal law requires all first responder agency employers appoint a Designated Infection Control Officer to manage and coordinate the response to occupational employee exposures to infectious substances. This course provides a basic understanding of infection control, infectious materials/diseases, Federal, State, and Local regulations and standards pertaining to infection control. The course further provides an understanding of organizational obligations related to mandatory notification(s), immunizations, required actions, and documentation. The course provides practical application of a DICO.

Up to 24 hours of CE Hours will be provided to students for the completion of this course.

Prerequisites

- None

Class Location

- Woodland Station 3
1550 Springlake Ct
Woodland, 95776
