

Project Mayday

Date & Time

November 14th or 15th, 2019
0900-1230hrs

Class Description

"In order for a firefighter to survive the dangers of firefighting, he/she must know how other firefighters have died or been seriously injured."
- Vinny Dunn, Deputy Chief FDNY (ret.)

Mayday, Mayday, Mayday - - - - Do you know when and where these events are most likely to take place? Don Abbott will share the critical lessons culled from a comprehensive analysis of more than 6,000 Maydays reported across the country.

Most Maydays don't gain much attention unless they result in injuries or death. Therefore, information sharing on the how, when, and where they take place, or what the rescue results were, is limited. The more we know about Maydays, the more we know how to adapt our training, SOGs and culture so it addresses the aspects of our job where firefighters are in the most danger.

Instructor

Donald Abbott retired from the fire service after spending 20 years working in the Indianapolis area. He then spent 10 years traveling the country and presenting an interactive fire-service training diorama called Abbottville. Abbott spent eight years helping to develop and coordinate the Phoenix Fire Department's Command Training Center. Currently, he is president of CERT (Command Emergency Response Training) and is working on the Mayday Project. In 2002, he received the ISFSI's Innovator of the Year award, and in 2006 he received the George D. Post Instructor of the Year Award. In 2014, the IAFC's Hazardous Materials Committee gave Abbott the John Eversole Lifetime Achievement Award.

Class Location

San Jose Fire Department
255 South Montgomery Street
San Jose, Ca 95110
