FEMA Bulletin IEMC - Course Announcement</p>
<p>State Training Officer Kelly Rogers Kelly.Rogers@caloes.ca.gov</p>	<p>Program Description: Each year, State, local, tribal, territorial, and specialized jurisdictions throughout the United States can apply to EMI to conduct a community-specific IEMC. IEMCs are exercise-based training workshops that place a jurisdiction's Emergency Operations Center (EOC) personnel in realistic crisis situations within a structured learning environment. The jurisdiction selects the hazard(s) and the Core Capabilities it wishes to include in both the plenary and exercise components of the course to reflect the jurisdiction's hazards or events, EOC type, and organizations included in emergency plans. Data reported in the applicable Stakeholder Preparedness Report and the Threat and Hazard Identification and Risk Assessment should be used as a basis for the request.</p>
<p>Scan application to: training@caloes.ca.gov</p>	<p>A community-specific IEMC builds awareness and skills needed to develop/refine and implement a jurisdiction's policies, plans, procedures, and mutual aid agreements in an EOC environment. Skilled EMI curriculum and exercise specialists conduct extensive virtual planning with jurisdictional staff to collect local information, identify critical infrastructure, study transportation systems, and analyze current response plans. From this information, exercises are built to access the jurisdiction's planned approach to specific hazards and to surface issues that IEMC participants may need to reevaluate and develop corrective action plans.</p>
<p>Or Mail to: Cal OES/CSTI Training Attn: Kelly Rogers/STO 3650 Schriever Avenue Mather, CA 95655</p>	<p>Target Audience: IEMCs are Homeland Security Exercise and Evaluation Program (HSEEP) consistent and designed for personnel who fill specific emergency support positions within their community. A sample of appropriate attendees include:</p>
<p>Sample Community-Specific IEMC Letter of Request: https://training.fema.gov/iemc/sampleletter.aspx</p>	<ul style="list-style-type: none"> • Chief elected and appointed officials from local, regional, State, and Federal emergency management agencies; • Senior-level personnel from response agencies and organizations (e.g., law enforcement, fire, emergency medical services, and public health); • Managers from Volunteer Organizations Active in Disasters (VOADs); and, • Representatives from private organizations which participate in local, regional, and State responses.
	<p>For a complete list of recommended attendees, refer to the IEMC website (http://training.fema.gov/iemc/iemcpos.aspx).</p>

<p>STAS: Prevention through detection and deterrence is the cornerstone of California's Homeland Security strategy. Prevention has at its core cooperation; sharing between agencies and across the full range of public safety disciplines.</p>	<p>Our state prevention strategy (State Threat Assessment System-STAS) has four Regional Threat Assessment Centers (RTACs) collocated with the four FBI Field offices in California, minimizing reporting conflicts, providing statewide coverage and facilitating coordination with our Federal partners.</p>	<p>The RTACs maintain a regional threat assessment focus for their area of responsibility and directly connect to each other and the State Terrorism Assessment Center in Sacramento to collaborate on strategic products and situational awareness.</p>
