"When quality and experience matter"

CA-219 Wildland Firefighting Firing Operations **Classroom May 14 & 15, & Burn June 4 & 5, 2022** **Presented by EMC & Montezuma**

This is an opportunity to take CA-219 from the cadre who developed the course for OES and SFT. The cadre consists of experienced IMT members who have been FIRBs and RX Burn Bosses.

CA-219 was developed as a California course to replace S-219 due to the fact S-219 was created to instruct experienced firing personnel on planning firing operations and does not actually instruct students how to conduct firing operations. CA-219 exceeds equivalency requirements from NWCG for S-219 for all qualifications requiring S-219. CA-219 contains additional instruction on fire behavior relevant to planning firing operation and 16 hours of practical live fire training on all of the standard firing techniques and live fire experience on supervising firing operations.

The class also has 4 positions open as Instructor trainees. Prerequisites for CA-219 Instructor is DIVS or Burn Boss, SFT Instructor qualified and FIRB experience. Contact us about those positions. Instructor trainees will receive all course instructor materials and participate in all classroom and live burn exercises in a train the trainer capacity.

SFT CA-219 has a SFT Firing Task Book ensuring to your department you demonstrated the ability to perform all standard firing techniques before certification. During the two days of live fire operations, you will gain live fire experience performing the techniques in the task book while serving on firing team conducting and holding firing operations. On the 4th day of class, you will rotate into the position of FIRB where you will plan and supervise a firing operation. You will be required to perform hotline holding actions using hand tools and back pumps. If this class fills there will be a second-class May 31-June 3, 2022.

Class Prerequisites for CA-219 Students: Basic Wildland Firefighter, Instructor Led S-290 Certificate and Arduous Fitness Level (you will be hiking in hilly terrain and doing lots of firing & firefighting)

Instructor Trainee Prerequisites; SFT Instructor qualified, DIVS or qualified Burn Boss.

Date, Time and Locations: Classroom sessions May 14-15, 0830-1730
Montezuma PPD
21 N 4th Street
Rio Vista, CA 94571

Burn sessions June 4-5, 0830-1730 Times may be adjusted due to weather.
Montezuma Hills, Rio Vista

Course Tuition: \$800
