Course Name

ICS 400: ADVANCED INCIDENT COMMAND SYSTEM FOR EXPANDING INCIDENTS

Course Description

This course provides training and resources for personnel who require advanced understanding and application of the Incident Command System (ICS). The purpose of this course is to expose ICS and other incident management practitioners to the concepts of using area command in major and complex incidents.

Course Objectives

- Given a scenario and review materials, apply key NIMS doctrine concepts (NIMS Management Characteristics, Unified Command, Incident Command System structure and functional area responsibilities, IAP Preparation and the Operational Period Planning Cycle, and incident complexity) to the management of a complex incident or event.
- Apply the appropriate structural option to manage a complex incident.
- Given a scenario, develop an Area Command organization.
- Identify the complex incident management issues that can result from a lack of multiagency coordination.
