

TRENCH RESCUE TECHNICIAN

Sept 15-17, 2025

COURSE DESCRIPTION

This course provides the skills and knowledge needed for the trench rescue technician to work safely and efficiently in a trench rescue environment.

This hands-on training program includes trench and excavation regulations, soil characteristics, trench configurations and hazards, rescue team preparation, incident response, initial on-scene and pre-entry operations, shoring systems and components, shoring system installation, victim rescue and recovery, and incident termination.

This course incorporates awareness, operations, and technician training based on NFPA 1006 (2021).
