Attendance Policy:

If you are unable to attend after being accepted into the class, please advise the course point of contact as soon as possible so the class can be offered to another student on the waitlist.

Special Considerations

Inform the course point of contact if you have any accessibility considerations at least 96 hours prior to the start of the course.

For More Information

Please contact Battalion Chief of Training - Lionel Jarreau at Ljarreau@oaklandca.gov or DEM-BATEP@sfgov.org

USFA O-305 TYPE III ALL-HAZARDS INCIDENT MANAGEMENT TEAM COURSE

Description

This five-day course provides students with a solid foundation of the activities, processes, leadership elements, and the knowledge, skills and abilities (KSAs) necessary to function within the framework of a Type 3 AHIMT deployed to an incident or planned event. The course is considered fast-paced, highly interactive, and challenging as the students, formed into the Command and General Staff positions on an All-Hazards Incident Management Team, navigate through multiple activities and rapidly expanding incident scenarios. The course includes a comprehensive review of the roles and responsibilities of each of the Incident Command System (ICS) Command and General Staff positions, their roles as leaders of their sections or functional areas, leadership and teambuilding, and decision-making under stress.

A significant portion of time is spent explaining the Planning Process, each step within the process, the roles and responsibilities of each ICS position within the process, and the deliverables expected from them (based on their ICS position on the team) at the conclusion of each step. Multiple scenarios are used throughout the class to provide the students with opportunities to practice each step of the Planning Cycle, conduct the meetings and briefings, and produce multiple Incident Action Plans (IAPs). Two of the course days include comprehensive incident scenarios that last approximately 5-6 hours and that require the team to manage current incident management operations of a rapidly expanding incident, at the same time as planning for, and completing, an IAP for the next Operational Period.

Requirements for Participants:

Please obtain your FEMA student ID number prior to class. This is your unique identifier to be used to maintain the record of FEMA trainings attended. Make sure your email address and passwords are correct/updated with your FEMA SID. Please use this link to register for a FEMA SID: <https://cdp.dhs.gov/femasid/register>.
