MONTEREY COUNTY MUTUAL AID MATRIX

GENERAL INFORMATION AND REMINDERS

Dispatchers should consider which agencies have already committed 1 or more apparatus to an incident when filling additional requests for the same type of apparatus.

For example, if an agency already sent a Type 1 as part of the initial Auto Aid response, they likely cannot send an additional Type 1.

Likely exceptions would be Monterey Fire, Salinas Fire, Monterey County Regional Fire due to having availability from multiple stations.

Whenever there is a Mutual Aid request for Five (or More) Engines or a Strike Team:

Notify Area Fire Coordinator & Fire Comm Liaison Officer

Inquire with the I.C. if a command vehicle should be dispatched.

"Any Type, Any Kind Request" - Contact CALFire BEU ECC for nearest Schedule B Apparatus in addition to this proximity list.

Air Ambulance - North Zone

North of Hwy 198 along the Hwy 101 corridor to include San Lucas north of Nacimiento-Fergusson Road along the coast.

	Agency (Call-sign)	Phone Number
1	CALSTAR 5 (STAR5) - Salinas	(800) 338-4045

* REACH 86 Considerations*

REACH 86 availability is at the discretion of the U.S. Army. Availability is determined by 0830 on a daily basis for the 24 hour window (0830-0830)

FlightGuard will dispatch REACH 86 if available or the next available CALSTAR/REACH EMS aircraft

GENERAL CONSIDERATIONS

If two EMS aircraft refuse the same mission due to weather at the scene or any other flight conditions, no additional aircraft are to be requested.

Weather at the airbase does not prevent the request of the next EMS aircraft.

EMS Aircraft assets below the heavy line should be considered for MCI response. Response is usually too long to be useful except for exication or MCI.

The * indicates that these assets deploy out of the same airport.
