CALIFORNIA SPECIALIZED TRAINING INSTITUTE

State Fire Training S-290 Intermediate Wildland Fire Behavior (S-290)

Dates:	Class Location:	Point Of Contact:
January 5-8, 2027 8:00 am - 5:00 pm	900 Park Street Paso Robles, CA	Barbara Mapstead • (916) 203-3443 barbara.mapstead@caloes.ca.gov

State Fire Training S-290 Intermediate Wildland Fire Behavior (S-290): This is a classroom-based skills course designed to prepare the prospective fireline supervisor to undertake safe and effective fire management operations. It is the second course in a series that collectively serves to develop fire behavior prediction knowledge and skills.

Course Objective:

- Identify and describe the characteristics of fuels, weather, and topography that influence wildland fire behavior.
- Describe the interaction of fuels, weather, and topography on wildland fire behavior, fireline tactics, and safety.
- Describe the causes of extreme fire behavior conditions (long range spotting, crowning, and fire whirls) that develop due to weather, fuels, and/or topography.
- Interpret, communicate, apply, and document wildland fire behavior and weather information.

Prerequisites:

- S-190: Introduction to Wildland Fire Behavior

Course Length: 32 hours
Course Code: S290-3-26
